

JOHN Z. VELDHUIS, P.E.

SENIOR PROJECT MANAGER, COMPLIANCE, INC.

EDUCATION: B.S. in Environmental Engineering with emphasis on Groundwater Quality
Michigan Technological University, 1996

PROFESSIONAL SUMMARY

Mr. Veldhuis is a Senior Project Manager at Compliance, Inc. Mr. Veldhuis has experience performing environmental site assessments, field investigations, and site remediation activities with Compliance, Inc. He has performed Tier I Risk Based Corrective Action (RBCA) evaluations for sites of environmental contamination under Michigan's Part 201 and Part 213, as amended.

Mr. Veldhuis has coordinated and implemented field investigations, including hydrogeological investigations, soil and groundwater sampling, surveying, and field screening of samples. He has experience performing oversight and sampling during UST removal activities and UST tank closure activities.

Mr. Veldhuis also has experience designing, installing, and implementing soil and groundwater remediation systems including soil vapor extraction, air sparging, oxygen injection, groundwater recovery and treatment systems, and free product recovery systems. Mr. Veldhuis' expertise allows him to assist clients in implementing a cost-effective remedial strategy based upon the site settings and characteristics.

In addition to providing environmental remediation services, Mr. Veldhuis also has experience preparing Phase I Environmental Site Assessments and Baseline Environmental Site Assessments (BEAs) for sites within the State of Michigan.
